

# Explore the Root Cause of Hormonal Disorders

## A4 Test Gives You Insight

## HORMONAL IMBALANCE

### Significance

The Androstenedione (A4) test measures the level of androstenedione, a hormone produced by the adrenal glands, ovaries, or testicles. This test helps evaluate hormone-related conditions such as polycystic ovary syndrome (PCOS), adrenal disorders, or early puberty and can be useful in diagnosing the cause of abnormal hair growth, menstrual irregularities, or infertility. Explore the Root of Hormonal Disorders – A4 Test Gives You the Insight.

## Androstenedione (A4)
